Article 20. To choose one selectman for three years, a town clerk, town treasurer, road agent, two delegates to the Constitutional Convention, and all other necessary officers and agents for the ensuing year.

Given under our hands and seal this nineteenth day of February, 1938.

FRED W. BROWNE,
EDWARD T. WILLSON,
JOHN E. S. HALL,

Selectmen of Farmington.

STATEMENT BY SELECTMEN

TO THE CITIZENS AND TAXPAYERS OF FARMINGTON:

In submitting our annual statement, we wish to call attention to the fact, that on December first next, our town will have attained 140 years of its corporate existence, for on December 1, 1798, that part of Rochester known as the North West Parish was set aside and incorporated as a separate town and named Farmington. An almost complete record of the town's business from the date of incorporation to the present time is preserved in the town vaults. In administering the affairs your selectmen have many times found it necessary to procure data from the earliest records, which were essential to the equitable adjustment of certain problems and demonstrates how important it is that records of town affairs be preserved.

Reviewing the town business for the past fiscal year, we wish to call your attention to some of the more important items and make recommendations for appropriations for the ensuing year. We make these recommendations with full knowledge that the public desires every possible service with the least possible tax assessment.

TOWN OFFICERS' SALARIES

We will not attempt to outline the amount of work which is now required of your town officers, space in the report does not permit, but will say that the salaries recommended do not compensate them for the work performed. We recommend the appropriation of \$2,100.00 and the following amounts as the salaries for the ensuing year:

First selectman	\$550.00
Second selectman	400.00
Third selectman	275.00
Town clerk	115.00
Town treasurer	150.00
Tax collector	550.00
Two auditors	40.00

MUNICIPAL COURT

We recommend that the former salary of the Justice, \$300.00, be restored.

TOWN HALL EXPENSES

During the past year the appropriation was exceeded; this was caused by repairs to the heating plant, insurance which was carried in the 1937 report as a liability, accounts payable, and the painting of the fire-escapes, ventilators, outside doors and large columns of the building which were in such need of repair that the painting could not be deferred any longer.

We recommend the appropriation of \$2,100.00, an increase of \$100.00 to the amount appropriated last year, so that the painting of the outside woodwork can be completed.

POLICE DEPARTMENT

We wish to call your attention to the fact that all money raised for this department is not for salaries alone; many other items are charged into this account, some of the largest of which were parking signs, road traffic lines, telephone, etc. Many of the items are recurring yearly expenses, but some, such as traffic signs are not expected to be a very large expense item for the ensuing year.

The total salaries for both elected officers is \$810.00 and all work done by special officers for the past year has been at the rate of 30 cents per hour.

The parking of cars has been and still is a serious problem and in order to have any regulations observed, so that all car owners could have similar privileges, it was necessary to purchase parking signs. This item was a large expense and was one of the major factors in exceeding the appropriation. For the present year we recommend that the sum of \$1,500.00 be raised.

Regarding night watch or patrol, we think that the voters should give this subject serious consideration and if it be deemed expedient to have such service, we hope that a sufficient sum will be raised to defray the expense.

BLISTER RUST CONTROL

We recommend that the sum of \$400.00 be raised and expended under the supervision of the State Forestry and Recreation Department. On February 9 we received

from the above named department the following statement of money spent in town and work accomplished during the past year.

Town program:

Crew cost (paid by town)	\$398.20	
Foreman (paid by state)	100.00	
Total cost		\$498.20
Received from town	\$400.00	
Paid from town funds	398.20	
Balance due town		\$1.80
Area covered	440 acres	
Currant and gooseberry bushes destroyed	10,660	
W. P. A. program:		
W. P. A. funds expended	\$1,188.20	
Area covered	1721 acres	
Currant and gooseberry bushes destroyed	62,200	
Number of men employed	8	
W. P. A. mapping program:		
W. P. A. funds expended	\$809.08	
Number of men employed	3	

FILTRATION SYSTEM W. P. A. PROJECT NO. 843

At the last town meeting we thought that \$350.00 would be sufficient as the town's share for the completion of this work, but it developed under a new contract that the town had to assume as additional expenses, the truck hire, sand and grading, and furnish all tools, with the result that the appropriation was exceeded. We are pleased to state that the project was completed at a total cost during the two years of approximately \$9,000.00; the town's share was about \$1,500.00 and the balance was paid the W. P. A.

HIGHWAYS AND BRIDGES

The floods of last year caused considerable damage to our highways and bridges, more especially to the dirt roads and the bridge near the "brickyard," so called. The total cost of damage repairs had to be assumed by the town, for we were unable to procure any state or federal aid such as was granted in 1936, with the result that the summer maintenance and material accounts exceeded the appropriations.

We will not attempt to outline in detail the costs of all damage repairs, but will mention some of the larger items. For several years Mad River bridge near the brickyard has been in a weak condition and in 1936, knowing that in the near future it would have to be rebuilt, we procured, at no expense to the town, the services of an engineer from the State Highway Department, who visited the bridge, drew plans and specifications with approximate cost of \$660.00 for materials only. The flood of February 22 further weakened the structure to such an extent that it was unsafe and had to be rebuilt. Agent Chesley procured structural fir for the heavy timbers and constructed a new bridge at a cost of approximately \$550.00 for both materials and labor. The bridge is so constructed that it should last for many years.

The Bunker street underground drain has for the past few years caused severe damages to the highways in that section and after the flood of February 22 it was found that something of a permanent nature must be done; either dig up and relay the old stone drain or lay a new one of tile. It was decided that the latter would be less expensive, so the tile drain was laid, beginning at a catch-basin on Mt. Pleasant street, thence across to the east side of Bunker street, thence down the hill to the bridge. We think that there will be no further trouble from this source.

For the past few years it has been the practice to treat some of the roads and streets with tarvia, giving the surfaces something of a hard or permanent nature. We think it advisable to treat a certain number of yards each year or as fast as funds are available for this purpose.

SERIAL NOTES

At the last annual meeting it was voted that the selectmen be authorized to issue bonds or serial notes to the amount of \$22,000.00, the proceeds of which were to retire an equal amount of floating debt represented by notes outstanding January 1, 1937. In order for the floating debt to be refunded it was necessary to have the vote validated by a special act of the State Legislature; this was done and serial notes were issued to the amount of \$22,000.00, payments to be made annually, commencing 1938 and ending 1949.

The following percentage tables may be of interest to the taxpayers. The figures are based on the amounts raised by property taxes and appropriations for 1937, exclusive of precinct taxes.

PROPERTY TAXES

\$35,474.57	Town	45.74%
